GMF TECH AND VENTURE CAPITAL SPECIAL: Join us for the "Tech and Venture Capital week" on the Reuters Global Markets Forum. We discuss a host of interesting topics including the transitive impact of technology on the financial and business world, how Asia’s biggest companies are embracing fintech, and the changes affecting SaaS start-ups as they adjust for a pandemic-altered world. We also go beyond and peek for insights on the repercussions of the U.S.-China trade war on advancements in computing chips and how successful European attempts to muzzle the market power of Big Tech have been ahead of the 2020 U.S. Presidential election.

All times are local time zone.
